A great sounding home theater experience available! Older model Bose speakers comprise the bulk of the experience (well outperforming both current and past competitors!). This set would be a great addition to an awesome television or as a replacement to the tiny home stereo systems of today.

The set includes:

1 Onkyo TX SR501 6.1 Channel 80 Watt Receiver (speaker wire & owner's manual included; perfect condition)

-- this model has dual optical audio throughput providing an even better connection to an already great system

2 Bose 601 Series IV Floor Speakers (Great condition; speaker face plates don't sit in post holes perfectly but do hold in place; Owner's manual included)

1 Bose VCS-10 Center Channel Speaker (Way better sound than the newer bluetooth sound bars and in excellent condition; highly desirable speaker by itself!)

2 Bose 161 Surround Channel Speakers (The speakers themselves are in perfect condition though the face plate covers have sustained minor damage due to multiple moves)

2 Bose 201 Backshelf/Back Channel Speakers (This pair works great stand-alone or with the 161's. Onkyo receiver has 'two room' sub-out option, so the back channel speakers to
